

'Investigative Science' Workshop

Highlights

- Inculcate in students the spirit of science inquiry which is central to the current curriculum
- Equip them with the skills to design and conduct investigation
- Enhance their ability to gather and analyze information and data

Outline

Our school will be conducting a special module 'Investigative Science' for our P4 students. This is part of a series of programmes planned to prepare all P4 students for excellence in Science.

This 3-day workshop serves to introduce to our students an important domain in Science that would be prevalent in P5 through to P6, that is the acquisition of process skills.

Students will get to plan investigations to discover how the results in an experiment can be manipulated through changing variables.

Skills needed by students to communicate their findings in the form of tables, graphs and charts are also honed. As such, lessons will be highly interactive and hands-on.

About Vitamindz™ Education

The learning of Science begins with Vitamindz™ Education. With our unique Vitamindz™ 'Eye' framework based on years of studies and research, we deliver to your child the highest standards in the teaching and learning of science using our proven techniques and approaches.

Given our wealth of experience in the arena of primary science education and the high success rate in quality passes of our students in PSLE science, parents can entrust their children with our MOE award-winning teachers.

3-Day Workshop:

22 - 24 Nov 2021
(Mon - Wed)

Schedule:

(A) 9.00am - 11.00am
(B) 12.00pm - 2.00pm

25 - 27 Nov 2021
(Thu - Sat)

Schedule:

(A) 9.00am - 11.00am
(B) 12.00pm - 2.00pm

29 Nov - 1 Dec 2021
(Mon - Wed)

Schedule:

9.00am - 11.00am
