

'Up - Your - Skills' Workshop

Highlights

- Further reinforce basic scientific skills and hone integrated scientific skills commonly tested in PSLE
- Understand the value of scientific skills in the mastery of Science
- Sharpen students' practical skills and equip them with useful techniques to tackle skill-based questions in Science

Outline

Our school will be conducting a special module 'Up Your Skills in Science' for our P5 students. This is part of a series of programmes planned to prepare all P5 students for excellence in Science.

The acquisition and mastery of scientific skills play an important role in a child's science learning journey.

These are essential skills that students must master and they include:

- Ability to plan fair investigations when conducting experiments
- Implementing measures to ensure reliability of data collected
- Presenting and interpreting information in the form of tables and graphs

This 3-day programme will heavily engage students in hands-on, minds-on activities.

About Vitamindz™ Education

The learning of Science begins with Vitamindz™ Education. With our unique Vitamindz™ 'Eye' framework based on years of studies and research, we deliver to your child the highest standards in the teaching and learning of science using our proven techniques and approaches.

Given our wealth of experience in the arena of primary science education and the high success rate in quality passes of our students in PSLE science, parents can entrust their children with our MOE award-winning teachers.
